

Market Efficiency Process Enhancement Task Force Phase 2 Update

March 18, 2019

Issue Summary

PJM has conducted multiple ME cycles (2014/15 and 2016/17) since implementing Order 1000 processes. The mission of the Market Efficiency Process Enhancement Task Force is to discuss challenges and opportunities for improvements that have become evident as a result of these ME cycles.

[Problem Statement & Issue Charge Charter](#)

Problem Statement/Issue Charge approved at Planning Committee on January 11, 2018

Number of meetings covering the Phase 1 topic: 15

Current number of meetings covering the Phase 2 topic: 10

1. Phase 2 Meeting

a. February 28, 2019

The MEPETF non-binding poll results were reviewed. Based on the results, the task force agreed to present Package A to the Planning Committee. The package included three design components: project reevaluation criteria, the long-term window timing being shifted, and the Market Efficiency mid-cycle update timing.

Operating Agreement and Manual language changes were discussed at the meeting. The redline changes for these documents were publically posted on the Monday after the MEPETF meeting.

The first read of the changes to the Operating Agreement and manuals was presented at the March 7, 2019 Planning Committee meeting.

The first read of the changes to the Operating Agreement and manuals is scheduled to be presented at the March 21, 2019 Markets and Reliability Committee meeting.

How to account for capacity benefits in the benefit to cost (B/C) calculations for market efficiency projects is still an open item. The MEPETF intends to commence meetings in April 2019 to discuss this issue.
