

# DER Ride Through Task Force Update

June 24, 2019

MC Webinar

Susan McGill

Facilitator, DERRTTF

- Conducted a poll of Task Force and PC Members in May
  - Results reviewed at May 21 Task Force Meeting
  - Large stakeholder support for a PJM recommendation which can be superseded by a local solution
- Reviewed PJM stability analysis of New Jersey predicting future DER and ride through response.
  - Preferred settings identified in the poll addressed issues identified in the analysis

- Task Force will focus on developing a PJM recommended settings package that will be used in the absence of local options.
- TOs/EDCs will share their standard settings package with PJM for use by Planning and Operations
- DERRTTF and TSS will host a 2-day workshop with members of the IEEE 1547-2018 drafting team for additional education
