### Valuing Fuel Security

#### **Issue Status**

The group is currently in the education phase of the Consensus Based Issue Resolution Process.

#### **Target Completion**

By the end of the third quarter 2019 the group will complete key work activities #1 - #4, and expected deliverable #1, and will report to the MRC their recommendations. The remainder of the key work activities and deliverables will be completed by the deadline to be set by the MRC at the December 2019 meeting.

#### **Progress Update**

The group has held six meetings to date: April 5, April 26, May 17, June 26, July 16, and August 12 and has its next meeting scheduled for September 20.

At the August 22 Markets and Reliability Committee (MRC) meeting, stakeholders agreed to move the deadline to make a recommendation to the MRC for deliverable #1 from September to December. The delay allows PJM staff more time to complete the required analysis to make a meaningful recommendation to the MRC.
