

Pseudo-Tie End-of-Month Meter Correction

MIC Meeting
January 11, 2017

NC Electric
Cooperatives

Your Touchstone Energy® Cooperatives 

Problem Statement

- No mechanism for meter correction at the end of the month for generators connected to PJM via pseudo-ties
- Available for other generators and tie lines
- Generators connected via pseudo-ties may be incorrectly compensated

Issue Charge

- Market Settlement Subcommittee anticipated to undertake the issue
 - Verify there is an issue
 - Identify solutions
 - Identify changes to implement proposed solutions
- Provide proposed solutions to MIC and MRC for vote
- Anticipate 4 – 6 months

Conclusion

- NCEMC requests the MIC approve the Problem Statement and Issue Charge associated with the pseudo-tie end-of-month correction
