

- PJM has modified the July 20, 2011 version of the PRD Business Rules (Manual Revisions) to:
 - Conform with tariff revisions reviewed by stakeholders at MRC on Sept 15, 2011, approved by members at MC on Sept 22, 2011, and filed with FERC on Sept 23, 2011.
 - Align to the matrix approved by stakeholders on July 20, 2011 with suggested language for details “as defined in PJM Manuals”
 - i.e. adjustments made to the RPM clearing processes for PRD that elects to provide a Reservation Price
 - Suggested language for clarity and consistently
- Stakeholders are being provided advanced time to review manual revisions prior to potential FERC order in December to allow for timely endorsement and publication of manuals concurrent with effective date of tariff revisions
