

# RPM Related Issues

Markets and Reliability Committee

Dave Anders

December 21, 2011

- Summer and Fall 2011 consideration of “short term” RPM related issues:
  - MRC Charged Track
  - Triennial Review (compliance filing)
  - Performance Assessment (compliance filing)
- Committed to identify and address “longer term” issues upon completion of the three tracks stemming from the Performance Review

- 75 items submitted by 13 entities (some duplicates)
  - LS Power, EnergyConnect, H-P Energy Resources, Dayton Power & Light, North American Power Partners, the Supplier Caucus, the Independent Market Monitor, PSEG, the PJM Industrial Customer Coalition, the PA Office of Consumer Advocate, the IL Commerce Commission, Rockland Electric, JP Morgan
- Placed into 9 rough categories
  - Auction Design Rules, CONE, DR, Long Term Auction, Modeling, NEPA, STRP, Transmission/RTEP, Other

- Very long list of suggested topics
- Many items not in the form of problem statements – rather in the form of specific proposals
- Problem statement for each category?
- Time frame for pursuing the issues?
- Long Term Capacity Issues Symposium (January 2010)  
sentiment toward having a period of stability in market rules

- Refine list of suggested topics, including grouping
- Polling MRC as to which topics should be pursued, grouping, and timeline for pursuing
- Additional discussion at future MRC meetings
- Conversion to problem statement and charge for future MRC approval
