**PJM Conference and Training Center, Valley Forge, PA**  
**September 26, 2019**  
**9:00 a.m. – 11:30 a.m. EPT**

## Administration

Ms. Denise Foster and Mr. Dave Anders welcomed stakeholders and provided the Anti-trust and Code of Conduct announcements.

Mr. Anders noted that PJM will be updating its current stakeholder email communication tool later this year. Stakeholders were asked to provide their IT departments the IP address, 13.111.63.217, to ensure members receive stakeholder communications from the new tool. If subscribers are unable to whitelist the IP address, please check the company spam folder to allow communications from “@lists.pjm.com”. Additional details regarding the tool update can be found under the Tech Change Forum.

Mr. Anders also noted that the PJM Stakeholder Survey will be open Monday, September 30, until Friday, October 11, and that the survey notifications will be sent using the new tool.

Ms. Foster noted the addition of agenda item 9 regarding an update on the 2022/2023 Base Residual Auction.

## Consent Agenda

Items A, B, and C approved/endorsed by acclamation with no objections or abstentions.

- A. Minutes of the August 22, 2019 meeting of the Markets and Reliability Committee (MRC).
- B. Proposed revisions to Manual 11: Energy & Ancillary Services associated with regulation historical performance scores and reserve requirements.
- C. Proposed revisions to Manual 27: Open Access Transmission Tariff Accounting and Manual 28: Operating Agreement Accounting associated with settlements changes for Energy Storage Resource charging energy related to FERC Order 841 compliance filing.

## Endorsements/Approvals

### 1. Non-Retail Behind the Meter Generation Business Rules

Ms. Terri Esterly reviewed proposed revisions to Manual 13: Emergency Operations and Manual 14D: Generator Operational Requirements as part of the clarification updates to the Non-Retail Behind the Meter Generation business rules. Specifically she noted updates to the proposed revisions to address concerns raised at the August 22, 2019 MRC meeting. These updates addressed:

- 1) excluding a generation facility that is dedicated to a retail end-use program that directly offsets retail charges (such as Community Solar or Aggregate Net Energy Metering resources) from being classified as Non-Retail BTMG,
- 2) providing all requested data on a Non-Retail BTMG template to the extent the LSE or EDC holds or after best efforts can obtain the requested data, and
- 3) clarifying the processes and EDC's role when there are multiple LSEs that serve load in a modeled EDC wholesale or multiple LSEs that serve load in the Rest of Zone.

Ms. Foster asked the committee if there were any objections to incorporating these updates into the proposed revisions. There were no objections, and therefore the updates were incorporated into the proposed revisions. Following discussion, the committee **endorsed** the proposed revisions by acclamation with no objections or abstentions.

## First Readings

### 2. Financial Risk Mitigation Senior Task Force (FRMSTF) Charter

Ms. Anita Patel presented revisions to the FRMSTF Charter document to adjust the completion of Key Work Activity 5 from the third quarter to the fourth quarter of 2019. Following discussion, the committee **approved** the proposed revision by acclamation with no objections or abstentions.

### 3. Load Management Testing Requirements

Mr. Pete Langbein provided an overview of the Load Management Test proposals endorsed by the Market Implementation Committee. Mr. Jack O'Neill discussed the main motion labeled as the PJM1a proposal. Mr. Brian Kauffman, Enel X North America, provided an overview of the alternate proposal labeled as the CSP2 proposal. The committee will be asked to endorse the proposed solution packages at its next meeting.

### 4. 2019 Installed Reserve Margin Study Results

Mr. Patricio Rocha Garrido reviewed the 2019 Reserve Requirement Study results (IRM, FPR). He noted that the analysis had been updated since presentation at the September 12, 2019 Planning Committee meeting to reflect withdrawn deactivations. The committee will be asked to endorse the study results at its next meeting.

### 5. PJM Manuals

A. Ms. Maria Baptiste reviewed the proposed revisions to PJM Manual 03A: Energy Management System (EMS) Model Updates reflecting the periodic review of the manual. The committee will be asked to endorse the revisions at its next meeting.

B. Mr. Vince Stefanowicz reviewed the proposed revisions to PJM Manual 14D: Generator Operational Requirements including a periodic cover to cover review and proposed language

changes regarding compliance with FERC Order 841 for energy storage participation. The committee will be asked to endorse the revisions at its next meeting.

[Issue Tracking: Electric Storage Participation - FERC Order 841](#)

- C. Ms. Laura Walter reviewed the proposed revisions to PJM Manual 36: System Restoration and PJM Manual 40: Training and Certification Requirements regarding FERC Order 841 for energy storage participation. The committee will be asked to endorse the revisions at its next meeting.

## Informational Reports

- 6. Ms. Pauline Foley provided an update on Orders EL15-1387 and EL19-61 related to Form 715 RTEP Projects.
- 7. Mr. Pete Langbein provided a summary of the PJM's plan to resubmit a filing regarding Price Responsive Demand (PRD). He discussed FERC's rejection of the previous filing in dockets ER19-1012-000 and ER19-1012-001, noting that the rejection was based upon the methodology to calculate the PRD value. In resubmitting the filing, PJM will revise the calculation methodology consistent with the guidance FERC provided. He noted that, based on the FERC order, the governing documents and manual revisions posted for this meeting highlight in yellow changes from versions approved/endorsed at the December 2018 the MRC and MC meetings.
- 8. Mr. Andrew Levitt discussed PJM's contingency plan absent FERC action on Order 841: Electric Storage Participation in Regional Markets. He noted that PJM plans to submit a letter to alert the Commission that it will not actually implement the provisions of docket ER19-469 unless FERC timely issues an order accepting this part of its compliance filing.
- 9. Ms. Jennifer Tribulski provided an update on the 2022/2023 Base Residual Auction (BRA). She noted that PJM continues to await a FERC order on PJM's October 2018 proposal. Until PJM receives such order, all BRA and BRA pre-auction activities are suspended. This is in line with FERC's July 25, 2019 Order directing PJM not to run the BRA until FERC establishes the replacement rate. Once FERC issues an order, PJM will establish a time frame for implementing the BRAs for 1022/1023, 1023/2024 and beyond, as needed. She also noted that as PJM Interim president & CEO Sue Riley expressed in her September 12, 2019 letter to Multiple Parties, PJM will consult with the stakeholder community (which will include a concerted outreach to commissions within our region) to determine the appropriate actions following the issuance of an order from FERC.
