Dynamic Line Ratings Enhancements

- Discussed during the [3/30/2021 OC Special Session](#)
- Enhancements to eDART to handle DLR:
 - Ability for Transmission Owners with DLRs to upload and download forecasted ratings (CSV format)
 - Files to be added to Ratings Information page on [OASIS](#)
- Dynamic Line Ratings Forecast (zip file with latest uploaded forecasted ratings)
- Historical Ratings (zip files with Ratings, Temporary Ratings and Dynamic Line Ratings Forecast per company)
- Implementation Timeline: May-June 2021

Other Discussion Topics

- Conversion of eDART files (.txt and .csv) available on pjm.com to zip files in July 2021.
 - Conversion to zip files will reduce the data transfer size for users.
 - Files are available via the Public Files report in eDART.
- Information in some of the files also available via XML downloads in eDART.
- Companies interested in using the Company Distributed Workflow (CDW) functionality should contact the eDART team for demo and set up requirements.

- **Dispatcher Training Subcommittee**

- Virtual sessions and online training will continue until at least June
- Improving technical capability to increase the amount of offered simulation training
- “Office hours” are available for members to ask questions about training materials
 - Register in the LMS under the Class Schedule section
- TO Connection release and training has been postponed until the end of April
- Additional self-study simulation training opportunities have been released
 - The number of simultaneous users will be limited
 - Register for the course in the LMS and get onto the waitlist as soon as possible

2021 Annual Voltage Schedule Review

- The eDART Voltage Schedule Annual Review function allows PJM to initiate a review of all applicable voltage schedules once a year.
- The 2021 Annual Voltage Schedule review was initiated on April 1, 2021, and will remain open through April 30, 2021.
 - TO Review Phase (April 1 – April 30, 2021): TOs to review and acknowledge accuracy of all active voltage schedules, and submit updates where necessary.
 - GO Review Phase (May 1 – May 31, 2021): GOs to review and acknowledge awareness of all active voltage schedules, and ensure their application in the respective generating facilities.
- This function also allows tracking of the TO and GO acknowledgements for each active voltage schedule reviewed during the process.
