

PC Special Session: Capacity Interconnection Rights for ELCC Resources

Brian Chmielewski
Manager, Market Simulation
Planning Committee
January 11, 2022

- [CIRs for ELCC Resources](#) approved at April 2021 PC
 - Ensure the appropriate application of CIRs to Generation Capacity Resources, with an emphasis on ELCC Resources
- Five defined solution design components:
 - CIR request policy
 - CIR verification, testing and retention policy
 - CIRs in ELCC methodology and AUCAP calculations
 - Implementation / effective dates
 - Transition mechanisms

- The eleventh meeting included:
 - Refresh of 4/20/21 CIR education
 - A compare/contrast of solution proposals
 - Currently three packages on table
 - Major differences remain cost responsibility and transition mechanisms
 - PJM notice seeking input from all stakeholders on their positions, including relevant legal precedent relied upon to support such positions

- Next meeting scheduled for January 21
 - Currently seeking additional meeting time in February
