Previously, PJM Connect prompted users for their accounts via the web browser and use the following format: DMZ\username

After integration, users are directed to Single Sign-On and DMZ\ is no longer required

- During PJM's network issues, PJM Connect remained available
- As a workaround for Secure Share during the outage, PJM Connect created private, individual libraries for PJM personnel to share with external stakeholders.
 - This option is a core feature of SharePoint and is available for any site in the future
