[Save Profile](#)

Automatic update of user profiles when new Regions or Message Types are added to EP if the user already has all related regions and Message Types selected.

## Update to Subject of EP Emails

- Current: Emergency Procedures (ENV)
  - ENV = environment: PRD for Production or TRN for Training
- New for PRD: PJM–EP: Event Message Type - Status (PRD)
- New for TRN: (TRN) PJM–EP: Event Message Type - Status

## Secure Data in Postings

- New section of Postings for PJM to enter data that should not be shared with the general public e.g. Control Room phone numbers.
- Logged in users will see this data and receive the data via email.
- Guest users will not see this data in the posting.

# Product Details

The Emergency Procedures tool informs PJM members, PJM personnel and other interested parties about important and/or emergency events as they occur within the PJM Regional Transmission Organization (RTO). Examples of emergency events include hot weather alerts, transmission loading relief (TLR) procedures and minimum generation events.

## **Key Product Features**

- Allows PJM dispatchers and reliability coordinators to post emergency procedures messages for all to see.
- User access, which permits email notification setup, to Emergency Procedures is available in Account Manager.
  - Guest access is also available via the Guest Sign In.
