

**Demand Response Subcommittee  
WebEx/Conference Call  
Sep 02, 2021  
1:00 pm – 2:30 pm EPT**

## **Administration (1:00 -2:30)**

1. Welcome, Announcements and Anti-trust and Code of Conduct announcement
  - A. WebEx report will be used for attendance
  - B. Review prior minutes –7/9/2021 meeting
  - C. Request for any additional agenda items
  - D. Brief update/discussion of DR related activity in other stakeholder groups – MIC, OC, PC, or other
  - E. Reminder DR Hub release – On-Site Generator settlement process - Brief update on the On-Site Generator Settlement process and notification that beginning September 16, 2021, the process will become functional in DR Hub.
  - F. MOPR and DR – Andrea Yeaton provided a reminder regarding PJM's filing of ER21-2582-000 (filed July 30, 2021 with request date Sept 28, 2021), requesting MOPR not to apply to Demand Resources or Energy Efficiency starting with the 23/24 DY. If approved as filed, MOPR would not be used for the Delivery Year 23/24 and beyond. Currently, however, we are operating under existing MOPR rules and are preparing for the 23/24 DY pre-registration which opens on 10/18/21. If FERC accepts our filing, then MOPR for future base auctions would no longer exist, however, it will still apply to the 22/23 3<sup>rd</sup> IA.

## **(1:15 – 1:45) Load Management Test Requirements that become effective for 23/24 DY [\(Presentation\)](#)**

Jack O'Neill provided an overview/reminder on the FERC approved Load Management Test Requirements that become effective for 23/24 DY.

Given that many of the subcommittee members will take part in the upcoming 23/24 BRA, PJM reviewed the modified testing requirements that will take effect starting in that DY. The testing/retesting details were presented in a matrix including pertinent items such as who schedules the tests/retest, when the test/retest can be performed and who is required to test. Additionally, rough timelines for the manual language approval process and DR Hub development were presented.

## **(1:45 – 2:30) Peak Shaving Adjustment plan updated performance calculation [\(Presentation\)](#)**

Ed Rich discussed the proposed Peak Shaving Adjustment performance calculation quick fix and the associated M-19 changes for the purpose of soliciting feedback prior to the first read at the scheduled 9/9 MIC meeting.

Due to a performance rating calculation error in PJM Manual 19, PJM has proposed with FERC to update the Shortfall MW calculation and performance rating process. In addition to correcting the formula itself, a proposal to calculate a performance rating by yearly total, as opposed to by event is

also included in this change request.

Note: PJM filed at FERC on 8/23 to reinstate the PSA plan submission deadline tied to the PJM load forecast process to ensure the PSA plan is submitted in time to adjust the load forecast.

## Future Agenda Items

Participants will have the opportunity to request the addition of any new item(s) to the agenda of a future meeting.

**Antitrust:**

You may not discuss any topics that violate, or that might appear to violate, the antitrust laws including but not limited to agreements between or among competitors regarding prices, bid and offer practices, availability of service, product design, terms of sale, division of markets, allocation of customers or any other activity that might unreasonably restrain competition. If any of these items are discussed the chair will re-direct the conversation. If the conversation still persists, parties will be asked to leave the meeting or the meeting will be adjourned.

**Code of Conduct:**

As a mandatory condition of attendance at today's meeting, attendees agree to adhere to the PJM Code of Conduct as detailed in PJM Manual M-34 section 4.5, including, but not limited to, participants' responsibilities and rules regarding the dissemination of meeting discussion and materials.

**Public Meetings/Media Participation:**

Unless otherwise noted, PJM stakeholder meetings are open to the public and to members of the media. Members of the media are asked to announce their attendance at all PJM stakeholder meetings at the beginning of the meeting or at the point they join a meeting already in progress. Members of the Media are reminded that speakers at PJM meetings cannot be quoted without explicit permission from the speaker. PJM Members are reminded that "detailed transcriptional meeting notes" and white board notes from "brainstorming sessions" shall not be disseminated. Stakeholders are also not allowed to create audio, video or online recordings of PJM meetings. PJM may create audio, video or online recordings of stakeholder meetings for internal and training purposes, and your participation at such meetings indicates your consent to the same.

**Participant Identification in WebEx:**

When logging into the WebEx desktop client, please enter your real first and last name as well as a valid email address. Be sure to select the "call me" option. PJM support staff continuously monitors WebEx connections during stakeholder meetings. Anonymous users or those using false usernames or emails will be dropped from the teleconference.
