

# 2021 Annual Voltage Schedule Review

# eDART Voltage Schedules - Annual Review

- The eDART Voltage Schedule Annual Review function allows PJM to initiate a review of all applicable voltage schedules once a year.
- The 2021 Annual Voltage Schedule review was initiated on April 1, 2021, and will remain open through April 30, 2021.
  - TO Review Phase (April 1 – April 30, 2021): TOs to review and acknowledge accuracy of all active voltage schedules, and submit updates where necessary.
  - GO Review Phase (May 1 – May 31, 2021): GOs to review and acknowledge awareness of all active voltage schedules, and ensure their application in the respective generating facilities.
- This function also allows tracking of the TO and GO acknowledgements for each active voltage schedule reviewed during the process.

## TO Review Phase – Steps for Annual Review

- Click the *In Effect* filter option to select only *Active* and *Needs Schedule* tickets in the TO's zone.
  - *Active* tickets indicate generator voltage schedules that have been fully processed (i.e. TO submitted, PJM Reviewed, and GO Acknowledged) and are currently in effect. These should be reviewed for accuracy by the TO.
  - *Needs Schedule* tickets indicate:
    - Generators without submitted TO voltage schedules. TOs need to submit voltage schedules for these generators.
    - Generators with already submitted TO voltage schedules that have not yet been fully processed (i.e. not yet GO Acknowledged or Active). These do not require any further action by the TO.
- Click orange **Acknowledge** button to complete annual review.

**Voltage Schedule (as of 01/04/2019 15:38)**

Needs Schedule (4 / 4)  
  Submitted (0 / 0)  
  Pending Review (0 / 0)

Click In Effect checkbox to filter for Active and Needs Schedule Tickets

Annual Review Section is visible only when Annual Review in progress and not yet acknowledged

Click Acknowledge Button to Complete TO Review after reviewing all applicable tickets

Annual Review Message for TOs

## GO Review Phase – Steps for Annual Review

- GO View defaults to PJM Reviewed filtered tickets. Any tickets in this status need to be reviewed by the GO, and GO Acknowledged after implementing at the respective generators.
- Click *In Effect* filter to select only *Active* and *Needs Schedule* tickets.
  - *Active* tickets indicate generator voltage schedules that have been fully processed (i.e. TO Submitted, PJM Reviewed, and GO Acknowledged) and are currently in effect. These need to be reviewed by the GO to ensure accurate implementation at the respective generators.
  - *Needs Schedule* tickets indicate generators without submitted voltage schedules, or generators with submitted voltage schedules that have not yet been fully processed (i.e. not yet GO Acknowledged or Active). These do not require any action by the GO.
- Click orange **Acknowledge** button to complete annual review.

**Review and change all PJM Reviewed tickets to GO Acknowledged**

**Click In Effect checkbox to filter for Active and Needs Schedule Tickets**
