

Geenex Solar **UPDATE**

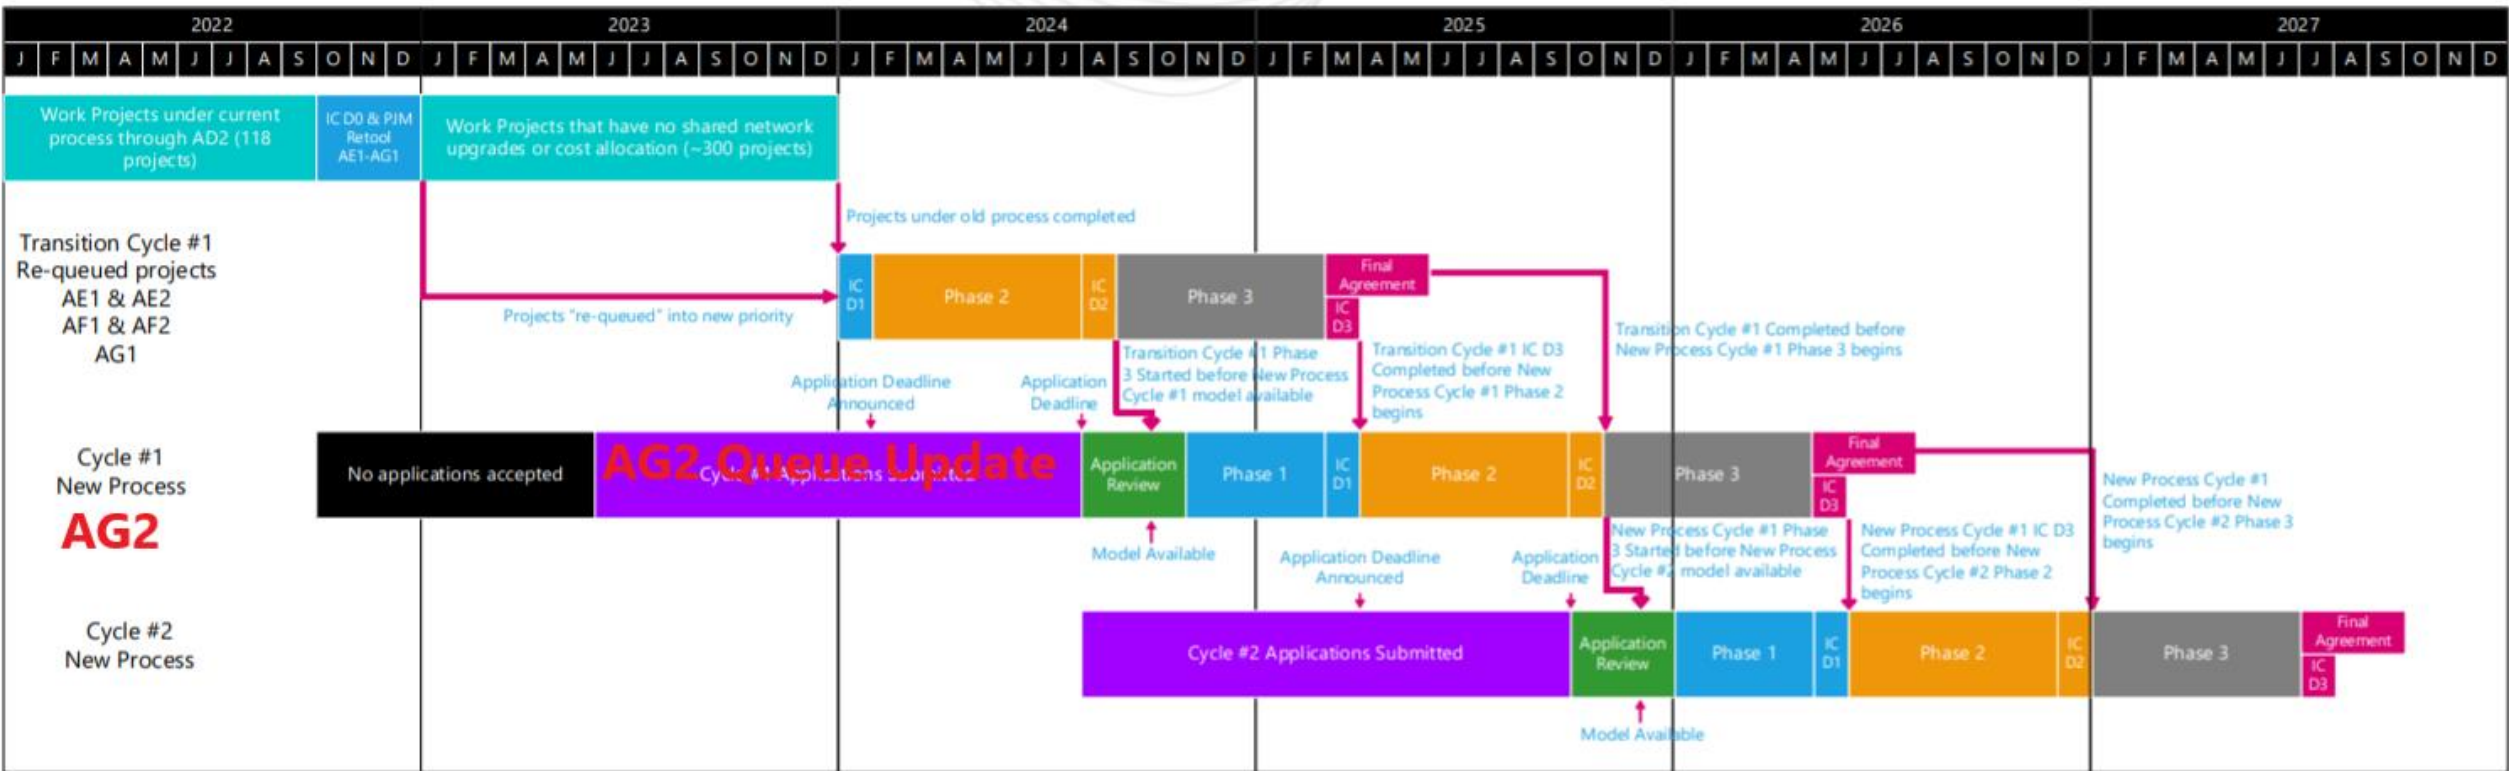

PJM INTERCONNECTION TRANSITION PLAN AND QUEUE REFORM DESIGN COMPONENTS

November 30, 2021

Geenex Solar Updates

- Geenex Solar thanks PJM and all stakeholders participating in the Interconnection Reform process.
- Geenex supports PJM's November 30, 2021 proposal with the exception of making the Cycle No. 1 (New Process) an AG2 only cycle.
- In an effort to reach consensus, Geenex is no longer sponsoring their past proposals as alternatives and asked PJM to remove them from the polling choice.

AG2 projects will submit appropriate updates to their Queue Point inputs instead of being withdrawn and resubmitting.
