

Resource Adequacy Sr. Task Force Work Plan Update

David Anders
Director, Stakeholder Affairs
Resource Adequacy Sr. Task Force
August 31, 2022

- Complete
 - KWA 1 – Clean Attribute Procurement Sr. Task Force Issue Charge approved and working
 - KWA 9 (MSOC) – Market Power Mitigation – Narrow proposal failed at MRC, broader matrix proposals first read at August MRC
- In Progress – Interest Identification, Education, Design Components & some options developed
 - KWA 2 – Reliability Risks and Risk Drivers
 - KWA 3 – Procurement Metric and Level
 - KWA 4 – Performance Expectation
 - KWA 5 – Qualification and Accreditation
 - KWA 6 – Obligations
- Seasonal Capacity Construct Opportunities (intertwined with KWAs 2-6 and 8)
 - Some stakeholder perspectives have been shared for discussion

- Dichotomy between discrete KWAs and holistic framework
 - Continuing to work in siloed KWA matrices presents challenges
 - Opportunity to work in a broader context to ensure holistic framework
- Critical Pivot Opportunity
 - Pause work on specific KWAs
 - Present PJM and stakeholder high level / holistic resource adequacy concepts
 - Once several holistic concepts are identified, use these to drive development of corresponding KWA matrices
 - Then advance the individual KWA matrices in parallel
